

# Moxi Websites

MoxiWebsites is an easy-to-use website builder for brokerages, offices, teams, and agents that makes putting your brand's best foot forward a simple task. With just a few clicks, you can create a customize a beautiful website that you can be proud of without putting the time into developing from scratch.

## Three Steps to Getting Started with MoxiWebsites

**Step 1:** [Create and preview your website](#) to access the Website Admin where all your editing functionalities live.

The screenshot shows the MoxiHub dashboard. At the top, there is a navigation bar with the MoxiHub logo and links for Home, Engage, Present, Directory, Email, and Promote. A search bar and a user profile picture are also visible. Below the navigation bar, there are several menu items: Moxi Life, Moxian Resources, Office Manager Requests, Marketing, Product, and Training Materials. The main content area features a welcome message: "Welcome to the MoxiHub! Everything You Need in One Place" with a subtext "Click on the interactive tiles below to navigate to different pages". There are two interactive tiles: one for a video titled "Enter your email address to view this video." with input fields for First Name, Last Name, and Email Address, and a "PLAY" button; and another tile for "Moxi Blog" with a red arrow pointing to the "Website" option in the user profile dropdown menu. The user profile for Sophia Stilwell is shown on the right, including her name, address (815 Western Ave Seattle, WA), phone number (206) 388-4789, and a list of menu items: My Account, Hub Admin, Account Manager Admin, Presentation Reports, Presentation Admin, and Website. A red arrow points to the "Website" option. A "Help" button is located at the bottom right of the dashboard.

**Step 2:** [Familiarize yourself with the Website Admin Tool.](#)

This is your control panel where every aspect of your agent website can be configured. With the Website Admin Tool, you can change your website's appearance, work with pages, create blog posts, and manage property lists, as well as configure all the settings for your website.

The screenshot shows the Agent Website Admin Tool interface. At the top, there's a navigation bar with 'My Sites', 'Visit Site', '+ New', 'Appearance', 'Homepage', and 'Search Engines Blocked'. The user is logged in as 'gapps1 agent'. A dark sidebar on the left contains a navigation menu with items like Home, Help, Appearance, Homepage, Site Pages, Images, Image maps, Property Lists, Custom Search, Links, Blog Posts, Comments, About Me, Settings, My Team, SEO, PowerPress, and Collapse menu. The main content area is titled 'Welcome to the Agent Website Admin Tool' and includes a 'Welcome' message, a list of features (Admin Bar, View Site link, Admin Navigation Menu), and a 'Common Tasks' section with various 'Go There' links for tasks like personalizing the site's style, homepage, search area, and navigation menu.

**Step 3:** [Secure your website](#) and [make your website public](#) to ensure that visitors don't run into a security warning and to increase your website's visibility on search engines.

The screenshot shows the 'Configuration' page in the Admin Tool. Under the 'Detected setup' section, there are two items: a red 'X' indicating 'SSL is not enabled yet' and a green checkmark indicating 'An SSL certificate was detected on your site.' Below the first item, there is a checkbox for 'Flush rewrite rules on activation (deselect when you encounter errors)' which is checked. A prominent blue button labeled 'Go ahead, activate SSL!' is shown with a red arrow pointing to it. Below the button, it says 'You may need to log in again.'
